

what will  
**BADU**<sup>®</sup>  
do for you?

**Badu**<sup>®</sup> SwimJet Systems

“I can swim all day  
and **never touch  
the wall.**”

# Now any pool can become a lap pool with a Badu® SwimJet System.

Now any pool, large or small, can provide mild to vigorous Olympic style workouts with endless swimming. Whatever type of pool you currently own or plan to build, the Badu SwimJet System will increase overall use and value.

As a lap pool providing well paced aerobic exercise and years of enjoyment, or a treadmill for various levels of activity, the Badu SwimJet System is the answer. Swim, play, exercise, relax — the benefits of the Badu SwimJet System are enjoyed by all from young to old.

Badu Systems are synonymous with the high level of quality you've come to expect from German engineering. In fact, 95% of all SwimJet systems

installed in the US are made by Speck Pumps — proof that our SwimJet products are the best.

## How They Work

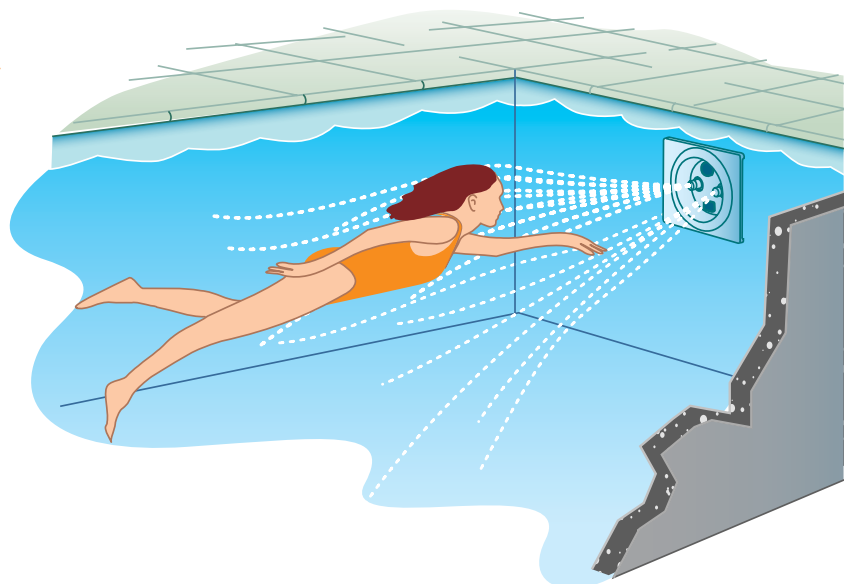

Water is pumped into the pool through one, two, or three large recessed jet nozzles mounted in an underwater housing. Capable of creating a current of 5000 GPM, the jets can be adjusted to provide resistance for an enjoyable, therapeutic walk, jog or swim, without the harmful pounding and jarring of street exercise. Also, there is a massage hose that can be attached to a jet nozzle that produces a pulsating, refreshing massage. The jet system acts like a treadmill in the water, offering unlimited long distance swimming.

## Installation

A Badu® SwimJet System can be installed in any type pool, new or existing, large or small, from gunite and fiberglass to vinyl liner. Each Badu® SwimJet System comes with a complete, easy-to-follow installation guide and a customer assurance hotline for tech support.

**swim**  
**exercise** **play**  
**relax**

*Consult your physician before attempting any strenuous exercise. This product may not be challenging or satisfying for all levels of exercise.*

**“I can stay fit** without  
breaking a sweat.”

Our water treadmills create an exhilarating current for a therapeutic walk, jog, swim or massage.

## **Badu®Jet** For New Pools

The full-featured Badu®Jet offers suction and discharge in the unique, patented, one-piece dual nozzle housing. Volume control and on/off button are conveniently located on the face of the jet housing.

**Badu®Jet Super-Sport**  
Dual Nozzle

**Badu®Jet CLASSIC**  
Single Nozzle

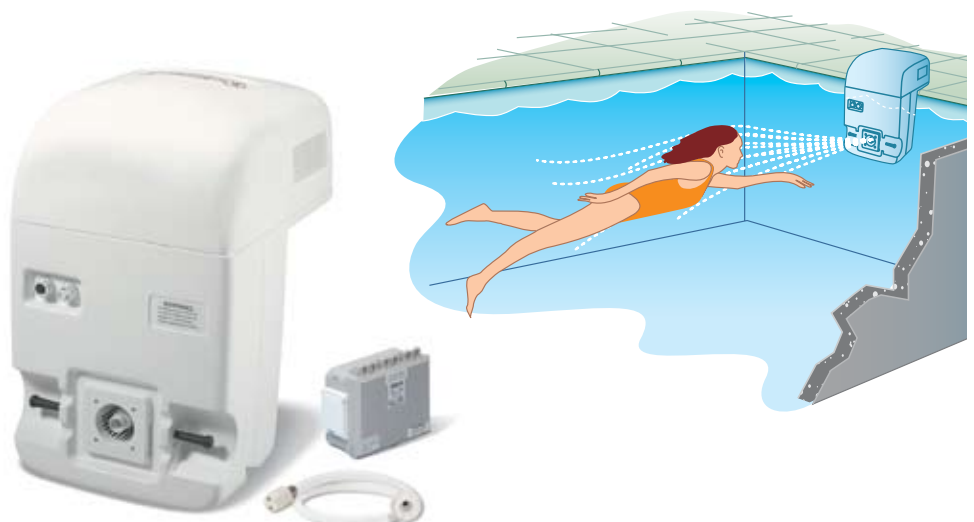

## **Badu®Stream II** For New Pools

The Badu®Stream II Jet System offers many different packages in a wide price range, all aimed at pleasing a variety of exercise styles and budgets. The system accommodates installation in limited space and varying pool wall designs.

## **Badu®Stream** **Over-the-Wall** For Existing Pools

Treadmill swimming is now convenient and economical. The Badu®Stream Over-the-Wall Unit provides great exercise and terrific recreational fun for existing pools.

“I’m the  
**most popular kid**  
in the neighborhood.”

Badu® SwimJet Systems can be installed in any type pool, new or existing, large or small.

## Which Badu System is right for you?

### BaduJet

- Available as a single-nozzle *Classic* or a dual-nozzle *super-sport*.
- Volume control and on/off button are conveniently located on the face of the jet housing.
- Water intake is nearly undetectable with Speck's unique housing design.
- Pulsating massage hose is included with the system.
- System is winterized in the same manner as any underwater pool plumbing.

### BaduStream II

- The BaduStream *II* can be used as a single, double or triple jet system with one or two pumps. The combination of triple jets and two pumps provide optimum performance for higher levels of exercise.
- Each BaduStream *II* jet is a flush mounted anti-entrapment combination fitting in its own housing.
- Options include a therapeutic pulsating massage hose.
- Housing cover is available in white, grey and black.
- Winterization is easy with Speck's winter cover kit, which fits directly over the face of the BaduStream Jet System.

### BaduStream Over-the-Wall

- An easy addition to any existing swimming pool. No need to excavate for plumbing and jets. Simply install the unit over the edge of your existing pool wall.
- The entire system comes complete in a self-contained box, with unit-to-control box cable and mounting hardware. (*Electrical hook-up requires a licensed electrician.*)
- Pulsating massage hose is included with system.
- To winterize, simply remove the unit from the pool, drain and store.
